The screenshot displays the IBM Tivoli Console interface. On the left, a navigation pane shows a tree structure with categories like 'SAN.FS Portland', 'SAN.FS Raleigh', and 'SAN.VC Raleigh'. Below this is a 'My Work' section with a search bar containing 'Volume' and a 'Sort by system' dropdown. The main content area shows a 'View Events - Tivoli Console' window with a table of events. A 'Common System Administration' window is also visible, showing a tree structure for system administration tasks.

Date	Time	Severity	Line	Description
1032001	14:30	Warning	Blue	1 inch water accumulation at Robertson Ave, track #3
1032001	16:08	Warning	Green	Green Hope track maintenance behind schedule, estimate 8:00
1032001	16:10	Warning	Red	Signal at Metro Central flashing
1032001	16:02	Warning	Yellow	Up escalator at Rothermiche Circle inoperative
1022001	15:58	Working	Green	Metro stalled between Green Hope and Frederick
1012001	08:00	Closed	Blue	Tyler road station closed due to construction, scheduled to open
1022001	08:00	Closed	Blue	Construction on parking lot at Upton Church station
1032001	08:00	Closed	Orange	Elevator at Kessen Blvd closed due to repairs, schedule unsure

The screenshot shows the IBM Director V5.1 search interface. At the top, there is a search bar with a 'Go' button and 'Search tips' link. Below it, a search criteria field is set to 'Search entire table for rows that contain these words:'. A table of search results is displayed with columns for Title, Category, Order number, and Type. The results include links to '8260 ATM Product Architecture' and 'A Comprehensive Guide to Virtual Private'. Below the table, there is a 'Contents' pane on the left showing a tree view of the IBM Director V5.1 documentation. At the bottom, a 'Search Results' list shows various search results with percentages, such as '100% Working with groups' and '90% Creating a criteria-based dynamic group'. A 'Dynamic Group Editor' window is also visible at the bottom right.

The screenshot shows a multi-select search interface. At the top, there are tabs for 'Action', 'Troubleshooting', 'Object', and 'Servers'. The 'Object' tab is selected, showing a list of server models: BladeCenter, OpenPower, iSeries, pSeries, xSeries, and zSeries. Below this list is a search bar with 'Go', 'Clear', and 'Setup...' buttons. At the bottom, there is a 'Listing' and 'Navigation Tree' section showing a list of search results: 'Troubleshooting xSeries servers', 'Isolating problems on BladeCenter', 'Servicing pSeries JS-20 blade', 'blah', 'blah blah', 'blah blah blah', 'etc.', and 'zSeries'.
